IB Information

Mrs. Pentorali shared with us about the Learner Profile

- Learner Profile is what makes an IB school.
- The idea behind the learner profile is:
 - "What do you want the children you teach to be like as adults? What do students need to be successful in the workforce?"
- Students are learning what it is to be a successful by using the Learner Profile.
- For more information there is a breakdown of the Learner Profile in student parent handbook
- Every month there is one focus from the Learner Profile.

The goal of the Learner Profile is to create students that are engaged active thinkers, have the ability to communicate, innovate, collaborate and problem solve.

IB Information

Things to Remember :

- The Learner Profile ensures students have a global competency from the start of their education.
- Develops over time
- The Learning Profile must be nurtured across a variety of circumstances so that they become ingrained and are likely to emerge when the situation calls for it.
- IB website and Pinterest are great resources for at home to use the verbiage of the Learner Profile.

Parent Resources

This year the Dailey Staff will be starting a Parent Resource page on the Dailey website. This will be located under the Parent Info tab.

The page will include a Resource Library of Videos with strategies you can use at home. It will include Quick 2 minute tutorials on how to help your student choose appropriate books to read for their reading level. There will also be information on how to help with homework at home or use the Learner Profile at home. Additional videos will be added throughout the year.
