## Online Learning

For families that would like to keep their student home, but still support their learning can do so from their home. This schedule will require students to participate daily in lessons, conferences, and discussions with a Dailey teacher. Students will be required to complete assignments by classroom deadlines and will be held to the same work expectations as students on campus. Dailey’s standard grading policy will be in effect. Selecting online learning will be a commitment

that will extend through the first two quarters. If families would like to change their learning environment and school conditions permit an increase of students on campus, they will be able to do so at the end of each quarter. Families will need to email administration and they will notify families if there is space available in a cohort. If there are more students requesting to attend in-person learning that there are spaces available in classrooms, students' names will be put into a lottery.

## Arrival

To limit lines and large crowds we will be implementing a staggered arrival schedule with the front gate and side gate open for students. Siblings can enter the campus together.

All students will be given a health questionnaire along with a temperature check. Students with a temperature of 100.4 Fahrenheit or higher will not be allowed on campus. Students that arrive at school with a 100.4 Fahrenheit or higher will have their parent/guardian contacted immediately for pick up. Students will stand outside with administration until they have been picked up.

Valet Traffic will enter through the front main gate on Harrison Avenue. Temperatures will be taken while students are still in the car along with the health questionnaire.

Students walking to school will enter campus through North Farris Avenue. To limit the amount of people near students, we are asking that adults stay away from the gate. Cones will be placed where adults need to stop.

Parents will not be allowed on campus during arrival and/or dismissal times. All visitors must be pre-arranged with administration and will be required to take the health questionnaire and temperature check.

Hallways and pathways on campus will accommodate one-way traffic. Signs will be posted around campus showing students which direction to go.
