

Online Learning Resources

On a road trip?
Want to do some cool science experiments?
Looking for a new game to play?

Here is a list of websites your scholar can access throughout the summer:

Math Websites

Math Playground

Link: <https://www.mathplayground.com/>

This website features math games, videos and logic challenges for grades 1 – 6.

ABCYa

<https://www.abcya.com/>

ABCYa lets kids play fun math games that align with common core math standards.

Prodigy

<https://www.prodigygame.com/main-en/>

Prodigy connects in-class learning to at-home math practice. Make us your go-to platform for effective blended and virtual learning. It's so fun they'll never want to stop!

Science Websites

American Museum of Natural History

<https://www.amnh.org/explore/ology>

This is a science website for kids from the American Museum of Natural History. It includes games, stories, videos, activities to do at home and more.

Science Bob

<https://sciencebob.com/category/experiments/>

Science Bob offers videos of experiments and then directions to try it at home

Language Arts Websites

International Children's Digital Library

<http://en.childrenslibrary.org/>

This digital library offers free access to high-quality books from around the world in different languages.

Story Jumper

<https://www.storyjumper.com/>

Story Jumper allows kids to write, illustrate, publish and record audio for their own books.

Storyline Online

<https://storylineonline.net/>

Storyline Online®, streams videos featuring celebrated actors reading children's books alongside creatively produced illustrations.

Social Studies Websites

World Atlas

<https://www.worldatlas.com/>

World Atlas offers interactive maps, clocks, flags and videos.

Music & Art Websites

New York Philharmonic

<https://www.nyphilkids.org/>

The New York Philharmonic has a kid zone with concert videos, games, puzzles and instructions for making instruments.

Toy Theater

<http://toytheater.com/category/art/>

Toy Theater lets kids use virtual tools to build, create and animate.

Chrome Music Lab

<https://musiclab.chromeexperiments.com/Experiments>

Music lab lets users explore musical concepts and sounds.
