

DAILEY ELEMENTARY CHARTER SCHOOL

HUMAN TRAFFICKING PREVENTION POLICY

California has the highest number of incidents of human trafficking in the U.S., and all students may be vulnerable. The Morris E. Dailey Elementary Charter School (“Charter School”) is committed to reducing the vulnerability of all children in California to incidents of commercial labor or sexual exploitation.

Staff Training

Training shall be available and conducted periodically to enable Charter School personnel to learn about new developments in the understanding of abuse, including sexual abuse, and human trafficking, and to receive instruction on current prevention efforts and methods. The Charter School may include training on early identification of abuse, including sexual abuse, and human trafficking of pupils and other minors.
